BUBBLE BEAD® LOBSTER SETUPS

**Single Tank
or
Dual Tiered Tanks**

+

BBF Filter Skid

+

Pump Assisted backwash is upgraded plumbing that is standard with Bubble Bead Lobster setups. This more powerful backwash cleans the filter to support the lobster's filtration needs. Regular Bubble Bead plumbing provides gentle backwashes, suitable for water features and ponds. For commercial settings, we recommend robust cleaning from either our Propeller bead which has a strong motorized impeller or this pump assisted BBF backwash configuration.

Chiller (Optional)
*Setups can be placed in walk in freezers
and the chiller omitted.*
